Evaluation

Evaluation criteria	Scale	1	2	3	Evaluation
	Point 100/100				
1/ Slide + Presentation	50	0% point	->50% point	->100% point	
Assignment/ Plan	5	Not listed or named but not implemented.	Work is included but incomplete.	Work is fully completed.	
Problem Understanding & Analysis	10	Does not understand the problem.	Identifies the problem but lacks in-depth understanding.	Demonstrates thorough research and deep understanding.	
Explanation of Architecture/Model	20	No explanation provided.	Provides a basic explanation.	Gives a detailed and well-structured explanation.	
Presentation Delivery	10	Does not present.	Presents but lacks clarity and understanding.	Presents confidently with clear understanding.	
Self-Study & Knowledge Integration	5	No additional learning beyond the course.	Uses and cites some external sources.	Effectively integrates external knowledge.	
2/ Demo code	50	0% point	->50% point	->100% point	
Data processing and analysis	10	No data module implemented.	Module is implemented but has issues.	Data module works well.	
Model Building	10	No model built.	Reused an existing model without modifications or transfer learning.	Built and optimized the model effectively.	
Accuracy Improvement	10	No training performed.	Model trained but results are poor.	Model is well-trained with strong performance.	
Implementation	20	No implementation.	Implemented but not fully functional.	Fully functional and correctly implemented.	
Sum.	100	Final point:			

Da Nang, 3rd April 2025
Lecturer

Prof. Tran Trong Minh
